EXPERIENCE

Web Developer Intern

Jun '25 — Jul '25

CollegeTips.in · Remote

- Built and shipped 8+ responsive, cross-browser web pages using HTML, CSS, and JavaScript, collaborating with the design team to translate Figma mockups into pixel-accurate, mobile-first layouts.
- Optimised page markup and CSS for performance and accessibility, ensuring consistent rendering across Chrome, Firefox, Safari, and mobile viewports.

PROJECTS

Grace Era — Full-Stack E-Commerce Platform

grace-era.vercel.app

- Built a full-stack e-commerce SPA for women's fashion (Dresses, Blazers, Co-ord Sets, Tops, Jackets) with a Node.js/Express REST API and MongoDB, supporting product catalogue, dynamic cart, and end-to-end checkout.
- Implemented JWT-based authentication and an admin dashboard with full CRUD for inventory and order management, order history, and category-filter search; fully responsive UI deployed live on Vercel.

Nexora AI — All-in-One AI Study Assistant

nexora-ai-beta-six.vercel.app

- Integrated the Groq API to power 8+ AI features including doubt solving, AI notes generation, a code helper, mock test generator, and image-based question solving via a unified prompt-handling layer.
- Built an AI Resume Builder, Career Guide Chatbot, and analytics dashboard with study heatmaps and weekly activity tracking; added free-tier usage gating with user authentication.

TRACE-X — AI Drug-Intelligence Platform

trace-x-zeta.vercel.app

- Led team CyberX as team leader in building an explainable intelligence-fusion platform for dark-web/encrypted-platform drug intelligence, submitted to the Chandigarh Police Hackathon 2026 (Problem Statement 3: DWID).
- Built an 8-stage fusion pipeline (Fragment → Extract → Correlate → Connect → Detect → Explain → Verify → Report) with a Node.js/Express + PostgreSQL backend, NLP entity extraction, and a Neo4j graph layer, with RBAC and audit logging.

Sahayta — Real-Time Disaster Assistance Platform

- Designed and developed a real-time disaster assistance web application connecting affected users with relief resources and responders; recognised as a finalist among 10x participating teams at a national-level hackathon for innovation and technical execution.

ACHIEVEMENTS & CERTIFICATIONS

- 10x National Hackathon Finalist** — recognised across multiple competitions including HackTU 7.0 and Shield 1.0 (organised by the Ministry of Home Affairs), among others.
- Artificial Intelligence Certification**, IBM via Coursera.
